

#### PAVILION

P1	60.00°	008-032-048-072-	Cut to CTP
		088-112	
P2	79.00°	006-034-046-074-	Cut until close to middle of stone depth
		086-114	
G1	90.00°	007-033-047-073-	Meet P1,P2
		087-113	
P4	52.00°	120-040-080	Meet P1,P2
G2	90.00°	120-040-080	Cut to meet C2,C3

#### CROWN

C1	79.00°	006-034-046-074-	Cut to meet G1, P2
		086-114	
C2	60.00°	008-032-048-072-	Cut to meet G1,G2
		088-112	
C3	52.00°	120-040-080	Cut to meet C1,G2

This design was inspired by the Brazilian flag, hence the name. The reduced scissor culet facets give it better reflection coverage and light return side-up, but under point lightsources you may find that the tips of the design will go dark in lower RIs.
